Education

Institute of Technology, Nirma University, B.Tech in Computer Science & Engineering

June 2024 – 2028

- **GPA:** 8.77/10
- **Coursework:** Data Structures and Algorithms, Object Oriented Programming, Operating Systems, Database Management Systems, Introduction to AI/ML, Java, Computer Architecture, Statistics, Data Communication

Technical Skills

Languages: C/C++, Python, JavaScript, HTML/CSS, Java

Frameworks/Libraries: ReactJS, FastAPI, Flutter, Scikit-learn, RASA

Tools/Platforms: Git, VS Code, Linux (Ubuntu), Docker, Supabase, Render, PostgreSQL, n8n, MATLAB

Experience

Bonrix Software Systems – AI/ML Intern

June 2026 – July 2026

- Optimized Qwen2.5-7B-Instruct for long context inference using vLLM and FP8, supporting a **128K-token** context window and shared context up to **300 KB**.
- Built ContextGPT using ReactJS and FastAPI, and deployed it on Podstack cloud GPUs for testing with **3+ concurrent users**.

ScaleTech – Software Development Intern

June 2025 | Demo

- Developed a Truck Routing Optimization Web App using ReactJS, FastAPI, and PostgreSQL, tested across **50 customer locations** in Ahmedabad for a two-truck delivery scenario.
- Applied K-Means clustering, OSRM, and Google OR-Tools to cluster customer locations and generate optimized delivery routes.

Projects

LabelLens: Product Label Analyzer

GitHub | Demo

- Built a Flutter-based mobile app using Google ML Kit OCR to extract ingredients from product labels and Groq-powered LLM analysis to identify potentially harmful substances, verify marketing claims, recommend safer alternatives, and support voice-based chatbot interaction.
- Technologies: Flutter, FastAPI, Supabase, Google ML Kit, Groq API, TTS/STT

CareerLens: Job Market Analytics Platform

GitHub

- Built a job analytics platform that scraped and analyzed nearly **19,000 live job listings** from LinkedIn and Naukri to identify skill-demand and AI-risk trends, recommend reskilling paths, and answer career queries using RAG.
- Technologies: ReactJS, Python, FastAPI, BeautifulSoup, PostgreSQL, RAG-based chatbot

Achievements

- **Smart India Hackathon 2025:** Selected among the Top 50 teams in the Primary Round for the RASA-based rural information chatbot ASHASaathi for ASHA workers.
- **Innovate Bharat Hackathon 2026:** Finalist for LabelLens.
- **LeetCode** : Maximum rating of **1480**.
- **Codeforces** : Maximum rating of **925**.
- **WorldQuant International Quant Championship 2026:** Qualified for Stage 1.

- **HackaMined 2026:** Participated in the national-level hackathon building CareerLens.

Extracurricular Activities

- Treasurer, IEEE Intelligent Transport Systems Society, Nirma University
 - Managed the ITSS chapter event at IEEE Carnival, a three-day inter-college event, overseeing budgeting, expense tracking, event photography, and sponsor outreach.
- Built a three-road traffic-light control system using Arduino Uno and LEDs, implementing signal timing and sequencing to simulate real-world traffic.
- Graphics Team Executive Member, Data Science Club, Nirma University.
- Member, Association for Computing Machinery and Computer Society of India, Nirma University.
